

Dixons Fazakerley Academy

Equality Objectives 2021-2024

Equality Objective 1:

To increase the representation of teachers and leaders from minority ethnic backgrounds to better reflect the community we serve by increasing the percentage of teachers from minority ethnic backgrounds from 3.2% to 15%.

Why we have chosen this objective:

The Equality Act 2010 introduced a single Public Sector Equality Duty, which applies to all schools, including both LA maintained and Academies. It requires that the academy must have due regard to the need to:

- Eliminate discrimination and other conduct that is prohibited by the act.

A growing proportion of our students are from minority ethnic groups, 14.1 with the majority coming from Eastern European and Black African backgrounds. However, only 3.1 % of our teaching staff are from such minority ethnic groups.

We believe that the ethnicity of our workforce should be more reflective of the population served:

- a. Minority teachers serve as role models for minority students.
- b. Minority teachers may have a greater opportunity to improve the academic success and positive school experiences of minority students.

This objective was chosen after consultation with governors.

To achieve this objective we plan to:

All staff appointments and promotions are made on the basis of merit and ability and in compliance with the law. However, we will be concerned to ensure, wherever possible, that the staffing of the academy reflects the diversity of our community.

We will ensure that our recruitment evenings and promotional videos include significant contributions from our teachers from minority ethnic communities.

We will use multiple platforms that will reach a more diverse audience when advertising for teaching vacancies for example BAME Ed Network

We will explore options to advertise locally in order to encourage applications from the local community.

The Principal will ensure that all appointment panels give due regard to the equality information and objectives, so that no-one is discriminated against when it comes to employment or training opportunities.

We will train all members of staff and governors involved in recruitment on equal opportunities and non-discrimination. Training evaluation data will show that 100% of those attending have a good understanding of the legal requirements.

Equality Objective 2:

To close the achievement gap by ensuring there is **no** significant difference in the progress made by different groups of learners.

Why we have chosen this objective:

The Equality Act 2010 introduced a single Public Sector Equality Duty, which applies to all schools, including both LA maintained and Academies. It requires that the academy must have due regard to the need to:

- Advance equality and opportunity between people who share a prohibited characteristic and people who do not share it.

Dixons Fazakerley is a slightly smaller than average secondary school and we have more boys than girls on roll. Approximately 60% of our students are from low-income families and so qualify for the pupil premium and a small but growing proportion of our students are from ethnic minority communities. 21% of our students are on the SEND register and 12 students have an EHCP. There are 4 looked after students.

It is unacceptable that in our country there is such an enormous gap between the life chances of children from poor backgrounds and other children:

- In England, disadvantaged students are 9 months behind their peers in primary school and 18 months behind in secondary school (22 months for the most persistently disadvantaged students)
- If the recent five-year trend continues, it would take over 500 years for the disadvantage gap to close by the end of secondary school
- Students with Special Educational Needs and Disabilities (SEND) remain significantly behind their peers at every stage – up to 40 months
- Disadvantage gaps still tend to be larger, and growing, in parts of the North of the country – the largest disadvantage gaps at age 16 were equivalent to over 2 years of learning
- Post-16 destinations are increasingly segregated – an over-representation of disadvantaged students in further education, employment and an unknown or un-sustained destination and an under-representation in school sixth forms, sixth form colleges and apprenticeships

Additionally, in 2020, the OFS reported:

- Young people from advantaged areas of England are more than six times as likely to attend selective universities, including Oxford, Cambridge and other members of the Russell Group, as those from disadvantaged areas.

This objective was chosen after consultation with staff.

To achieve this objective we plan to:

Achieving our mission will not be easy, but our research has shown that it can be achieved if we:

- have high expectations and operate consistent routines and protocols
- deliver a powerful, knowledge-rich curriculum for all
- a whole school focus on literacy and numeracy development
- have an unwavering focus on outcomes
- offer the very best teaching and support

Using the Pupil Premium effectively is a key part of our strategy for closing the gaps (see academy website for details of our Pupil Premium allocation, spend and impact).

Equality Objective 3:

To ensure 100% of Year 7 – 9 students participate in, at least, one extra-curricular activity.

Why we have chosen this objective:

The Equality Act 2010 introduced a single Public Sector Equality Duty, which applies to all schools, including both LA maintained and Academies. It requires that the academy must have due regard to the need to:

- Foster good relationships across all characteristics, between people who share a protected characteristic and people who do not share it.

Approximately 60% of our students are from low-income families and so qualify for the pupil premium. Children from disadvantaged backgrounds are less likely to be encouraged to participate in extra-curricular activities. We want to ensure that every child at Dixons Fazakerley Academy regularly participates in at least one extra-curricular activity.

Research indicates that participating in after school programmes improves performance on measures of academic achievement. There is also evidence that there are wider benefits for low-income students in terms of attendance at school, behaviour and relationships with peers (Education Endowment Foundation).

This objective was chosen after consultation with students.

To achieve this objective we plan to:

All students will be offered a range of extra-curricular activities every week which they are encouraged to attend. Students can choose from a range of subjects, such as: art, drama, dance, debate, chess, music, gardening and a wide variety of sports. Students will be encouraged to attend extra-curricular clubs which run daily from 3.30pm to 4.30pm and may also include team sport, homework club, history club, games club, music and community action.

We will use a proportion of our pupil premium funding to help cover the costs associated with delivering extra-curricular activities on such a large scale.
