

Subject: Uniform Consultation – Your Voice Matters

Dear parents/carers,

We are reviewing our school uniform for next year. This is an exciting opportunity to shape something that plays a key role in our school's identity, standards, and sense of belonging, while ensuring students feel comfortable and confident each day.

We are also very mindful of the current cost of living, which is one of the primary drivers for this consultation. Affordability will be a key consideration in any decisions we make.

To do this well, we are carrying out a structured consultation involving a representative group of students, parents and staff. This allows us to look carefully at a range of options and gather meaningful, practical feedback.

As part of this process, some parents will be invited to take part in a small consultation group, including those who have volunteered for our local advisory board. These will be selected to reflect a range of backgrounds and perspectives across the school.

Our aim is simple: to establish a uniform that is:

- Smart and reflects high standards
- Comfortable and practical for daily wear
- Affordable for families
- Worn with pride by all students

We look forward to working together on this and giving our students a renewed sense of pride and belonging in their school.

Thank you, as always, for your continued support.

Nick Hughes

Principal
