

1.1 Enterprise and entrepreneurship	
<b>Dynamic nature of business</b>	The idea that business is ever-changing because external factors, such as technology, are always changing
<b>Demand</b>	The number of units that customers want – and can afford – to buy.
<b>Entrepreneurs</b>	Business people who see opportunities and are willing to take risks in making them happen
<b>Obsolete</b>	A product or service with sales that have declined or come to an end as customers find something new.
<b>Adapting existing products</b>	Finding new products based on the original one
<b>Competitive advantage</b>	A feature of a business that helps it to succeed against rivals. Original ideas: ideas that have not been done before.
<b>Business risks</b>	Business failure and lack of financial security.
<b>Customer needs</b>	The products or services people need to make life comfortable
<b>How to add value</b>	Convenience, branding, quality, design, unique selling points.
<b>The role of entrepreneurship</b>	Organises resources, makes business decisions, takes risks
<b>Business Rewards</b>	Business success, profit, independence
<b>Why new business ideas come about</b>	Changes in technology, changes in what consumers want. products and services becoming obsolete.
<b>USP Unique selling point</b>	An original feature of a product that rivals aren't offering.
<b>Branding</b>	Giving a product or service 'personality', with a name and logo that makes it stand out.

1.2 Spotting a business opportunity	
<b>Types of customer needs</b>	price, quality, choice, convenience
<b>Identifying customers</b>	Finding out who they are: their age, gender, incomes, where they live and what they want
<b>Understanding customers</b>	Learning why customers do what they do, making it easier to see how to make a product that better suits them.
<b>Importance of understanding customers</b>	Generating sales, business survival.
<b>Market Research</b>	The action or activity of gathering information about consumers' needs and preferences.
<b>Purpose of market research</b>	To identify and understand customer needs, to identify gaps in the market, to reduce risk and to inform business decisions.
<b>Primary research</b>	First hand e.g. Survey, questionnaire, focus group, observation
<b>Secondary research</b>	When a company uses research that has already been carried out for general purposes e.g. Internet, market reports, government reports.
<b>Qualitative data</b>	In-depth research into the opinions and views of a small group of potential or actual customers; it can provide insight into why consumers buy what they buy.

1.2 Spotting a business opportunity continued	
<b>Quantitative data</b>	Factual research among a large enough sample of people to provide statistically reliable results - a survey of 500 people aged 15–24 years.
<b>Market segmentation</b>	Dividing customers within a market into smaller groups with common wants or needs.
<b>Identifying market segments</b>	location, demographics, lifestyle, income, age
<b>Market mapping</b>	To identify a gap in the market and the competition.
<b>Demographics</b>	The study of the statistical differences that exist within a population, both now and in the future.
<b>Competitive environment</b>	The strength of competition between companies in the same market.
<b>Understanding the competitive environment</b>	Strengths and weaknesses of competitors based on: price, quality, location, product range and customer service

Topic 1.3 Putting a business idea into practice	
<b>Aims and Objectives</b>	Aims are long term goals, objectives are short term targets- usually linked to the aims
<b>SMART Objectives</b>	Targets that are specific, measurable, achievable, realistic and time-bound.
<b>Financial aims and objectives</b>	survival, profit, sales, market share, financial security
<b>Non-financial aims and objectives</b>	Social objectives, personal satisfaction, challenge, independence and control.
<b>Survival</b>	keeping the business going, which ultimately depends on determination and cash.
<b>Revenue</b>	This is the income generated from sales - Revenue = Price x quantity sold
<b>Fixed Costs</b>	Costs are what the business pay to operate their business. Fixed costs have to be paid regardless of how many items are sold. Examples of fixed costs include: rent, salaries, insurance.
<b>Variable Costs</b>	Costs that vary as output varies, such as raw materials. e. Examples include: packaging and raw materials. Variable costs = Variable cost per unit x Units produced.
<b>Total Costs</b>	All the costs for a set period of time, such as a month. Total costs = variable costs + fixed costs
<b>Profit</b>	Profit is the difference between revenue and costs. Total revenue – total costs
<b>Break-even</b>	The level of sales at which total costs are equal to total revenue. At this point the business
<b>Break- even formula</b>	Break-even output = $\frac{\text{fixed costs}}{\text{Price variable costs per unit}}$
<b>Margin of safety</b>	The amount by which demand can fall before the business starts making losses.

**Topic 1.3 Putting a business idea into practice continued**

<b>The importance of cash to a business</b>	To pay suppliers, overheads and employees, to prevent business failure (insolvency), the difference between cash and profit.
<b>Cash Flow</b>	The movement of money into and out of the firm's bank account. It is the difference between cash inflows (receipts) and cash outflows (payments).
<b>Cash flow forecast</b>	A prediction of future cash flows.
<b>Closing balance</b>	the amount of cash left in the bank at the end of the month. Closing balance = net cash flow + opening balance.
<b>Negative Cash Flow</b>	when cash outflows are greater than cash inflows
<b>Net Cash Flow</b>	net cash flow = cash inflows – cash outflows.
<b>Opening balance</b>	The amount of cash in the bank at the start of the month. Opening balance = closing balance of the previous period.
<b>Short term source of finance</b>	Is finance that is required for less than a year - overdraft and trade credit
<b>Long term source of finance</b>	Is required for longer than a year. A business might need finance for: start up capital, buying fixed assets like buildings or machinery - Personal savings, venture capital, share capital, loans, retained profit and crowd funding.
<b>Crowdfunding</b>	Raising capital online from many small investors (but not through the stock market).
<b>Dividends</b>	Payments made to shareholders from the company's yearly profits. The directors of the company decide how large a dividend payment to make
<b>Retained Profits</b>	Profit kept within the business (not paid out in dividends); this is the best source of finance for expansion.
<b>Share Capital</b>	Raising finance by selling part ownership in the business. Shareholders have the right to question the directors and to receive part of the yearly profits.
<b>Trade Credit</b>	When a supplier provides goods but is willing to wait to be paid – for perhaps up to three months. This helps with cash flow.
<b>Venture Capital</b>	A combination of share capital and loan capital, provided by an investor willing to take a chance on the success of a small to medium-sized business.

**1.4 Making the business effective**

<b>Limited Liability</b>	Restricting the losses suffered by owners/shareholders to the sum they invested in the business
<b>Unlimited liability</b>	Treating the business and the individual owner as inseparable, therefore making the individual responsible for all the debts of a failed business.
<b>Sole Trader</b>	A business run by one person; that person has unlimited liability for any business debts.
<b>Franchising</b>	Paying a franchise owner for the right to use an established business name, branding and business methods.
<b>Public Limited Company (PLC)</b>	Larger businesses may choose to become a public limited company (Plc). In a Plc, <b>shares</b> are sold to the public on the <b>stock market</b> . People who own shares are called 'shareholders'. They have limited liability
<b>Private Limited Company (Ltd)</b>	Can be a small or large business which have <b>limited liability</b> and often these types of business have 'Ltd' after the business name and are owned by shareholders

**1.4 Making the business effective continued**

<b>Partnerships</b>	Partnerships are businesses with unlimited liability that are owned and run by 2-20 people
<b>Factors- location</b>	proximity to: market, labour, materials and competitors
<b>Marketing Mix</b>	◆ product ◆ price ◆ promotion ◆ place
<b>Place</b>	How and where the supplier is going to get the product or service to the consumer; it includes selling products to retailers
<b>Price</b>	Setting the price that retailers must pay.
<b>Product</b>	Targeting customers with a product that has the right blend of functional and aesthetic benefits without being too expensive to produce.
<b>Promotion</b>	All the methods that a business uses to persuade customers to buy, for example branding, packaging, advertising etc
<b>Business Plan</b>	A detailed document setting out the marketing and financial thinking behind a proposed new business. Including name, costs, aims etc

**1.5 Understanding external influences on business**

<b>Stakeholders</b>	All those groups with an interest in the success or failure of a business. E.g. customers, shareholders, employees etc
<b>E-Commerce</b>	Selling online rather than in a physical one-to-one transaction..
<b>Payment systems</b>	Ways of paying electronically such as PayPal.
<b>Digital Communication</b>	Messages or conversations conducted via email, text or social media.
<b>Consumer Law</b>	Acts of parliament that are intended to protect customers from misleading or dangerous practices by companies. Protects quality and consumer rights
<b>Consumer Rights</b>	Laws that empower the consumer to demand certain minimum standards from every business supplier
<b>Employment Law</b>	Law to protect employees from discrimination- recruitment, pay, discrimination and health and safety.
<b>Legislation</b>	Laws passed by acts of parliament; breaking these laws may result in a fine or even a prison sentence. It covers consumer law and employment law.
<b>Economy</b>	The state of a country or region in terms of the production and consumption of goods and services and the supply of money
<b>The impact of the economic on business</b>	Unemployment, changing levels of consumer income, inflation, changes in interest rates, government taxation, changes in exchange rates.
<b>Inflation</b>	The rate of increase in the average price level.
<b>Taxation</b>	Charges placed by government on goods, imported goods and the incomes of individuals and companies
<b>Exchange rate</b>	the value of one currency measured by how much it will buy of other currencies.
